

JVSG Program Evaluation

- This Program Evaluation is based on PY22 for JVSG, where data is collected across Job Service, My Reemployment and RESEA.
- For This Quasi-Experimental Evaluation of JVSG we have chosen the Control Group to consist of Veterans that are enrolled in Job Service and the Treatment Group to be Veterans that are Co-Enrolled in Job Service and Reemployment Services.

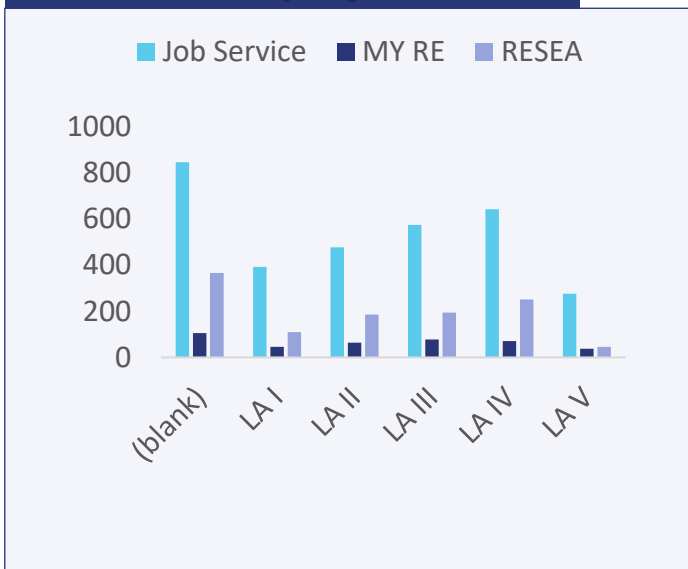

The Program Evaluation Objectives Were to:

Sr. No.	Objectives
1.	Evaluate performance and identify best practices across local areas
2.	Make recommendations for continuous improvement for JVSG
3.	Ensure that all participants meet eligibility requirements
4.	Determine how successfully JVSG serves Kansas veterans, spouses and covered persons

Employment Rate for Local Areas Q2 and Q4 After Exiting Program

Number of Services by Program

Key Findings of the Program Evaluation

Eligibility Requirements and Services

- All participants across Job Service, My Reemployment and RESEA meet the eligibility requirements
- A significant amount of participants are not assigned a Local Area – this is also the case for services provided

Performance by Local Area

- Local Area I exceeds expectations while the number of participants is low
- Local Area II meets expectations for performance and has the highest number of participants
- Local Area III meets expectations while the number of participants is low
- Local Area IV exceeds expectations - especially considering the high number of participants
- Local Area V has the highest employment attainment and exceeds expectations while the number of participants is low

Serving Kansas Veterans, Spouses and Covered Persons

- Based on the data retrieved during the period analyzed, JVSG program data is limited on determination of certain aspects of program evaluation
- The JVSG program exceeds expectations with regard to priority of service for Kansas veterans, spouses and covered persons

JVSG – Moving Forward

Best Practices Across Local Areas

- Career guidance
- Staff assisted services
- Job Search Activities

Recommendations for Continuous Improvement

- Focus on the best practices across Local Areas
- Get more relevant referrals
- Continue to have staff working closely with participants
- Assign Local Areas to all new participants and services provided
